# FINOCRETE COLLECTION

---

the new range of UHPC furniture

The Finocrete Ultra High Performance Concrete (**UHPC**) Collection begins a next chapter in the long-standing partnership between Urbastyle and Consent.

This collection is specially designed for and with Urbastyle by designers from all over the world.

Finocretes' potential for slim and more durable design for urban and architectural applications is tremendous, and gives architects and consultants more freedom than ever in the design of their projects.

Products are available in polished, silky and vellum finish.

Check this out!

# MATERIALS

## UHPC UHPC

**Ultra High Performance Concrete** is great for the design of more slender and durable products.

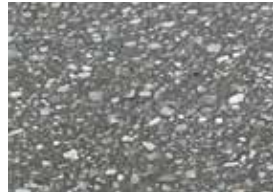

UHPC incorporates structural synthetic macro fibers in mass and has micrograde aggregate, allowing the production of very resistant and lightweight elements.

UHPC can present non uniform cloudy effects of colour and hair cracks, which are characteristic aspects of this material
